Study on the rhythm of your gait

The laboratory of Prof. Simone Dalla Bella, University of Montreal, is interested in how you walk while hearing sounds

- **In this study, you will complete a few tests on a tablet to measure your rhythmic abilities, then you will walk on a track wearing sensors to analyse your movements.**
- **The participants must meet the following criteria:**
  - **Be aged between 18 and 40 years old**
  - **Not have any motor disorder**
  - **Have a normal sight and hearing (or corrected to normal)**
  - **Be neurotypical (do not currently have a mental health disorder (e.g.: depression, schizophrenia, personality disorder) or a neurological disorder (e.g.: epilepsy, dyslexia).**
- **If you are not sure whether you meet these criteria, feel free to check with us.**
- **Receive $10 per hour by participating in two sessions of approximately 1h15 and 1h30 respectively on two different days.**
- **Appointments at your convenience!**
- **The International Laboratory for Brain, Music and Sound Research (BRAMS) is located at Pavillon Marie-Victorin at Université de Montréal (Metro station Édouard-Montpetit).**
